

- At the junction box: 1 male cable coupler **plus** (left, **red**) and 1 male cable coupler **minus** (right, **blue**)

At delivery a cable (2,1m) is plugged to the left connector of the junction box: female cable coupler **plus** (on cable) connect with male cable coupler **plus** (on module) – **red on red**; At the free end of the cable is the female cable coupler **minus** which plugs into the male cable coupler **minus** of the next module.

➤ At delivery this side of the cable is connected to the left side of the junction box.

- for installation: at the last module is 1 free male cable coupler **minus** (**blue**) on the junction box, and at the first module is 1 free female cable coupler **minus** (**blue**) on cable

You need per string only 1 female cable coupler **minus** (4 mm² - 40214000000026 or 6 mm² - 40214000000007) for connection to module and 1 male cable coupler **minus** (4 mm² - 40214000000027 or 6 mm² - 40214000000008) for connection to the free module cable.

No matter if you install from right to left or from left to right, you will need for each string only 1 female cable coupler **minus** and 1 male cable coupler **minus**.
